

Unit II Data Encryption Techniques And Standards

Sr. No.	Topic
1.	Data Encryption Techniques And Standards
2.	Encryption Methods: Symmetric, Asymmetric
3.	Cryptography
4.	Substitution Ciphers
5.	Transposition Ciphers
6.	Stenography applications and limitations
7.	Block Ciphers and methods of
8.	Feistel Cipher
9.	Data Encryption Standard (DES)
10.	Triple DES
11.	Weak Keys in DES
12.	Advance Encryption Standard (AES)
